BLOCK³

ABBREVIATION REFERENCE: AIR = American Indian Reservation; Trust Land = Off-Reservation Trust Land; TJSA = Tribal Jurisdiction Statistical Area; TJSA = Tribal Designated Statistical Area; ANVSA = Alaska Native Village Statistical Area; ANRC = Alaska Native Regional Corporation; CDD = Census, Civil Division, CDD = Census Designated Place; BNA = Block Numbering Area

| FEATURES | |
|--------------------------|------------------------|
| Highway | Pipe/Power Line |
| Secondary Road | River/Physical Feature |
| Joop Trail/Highway/Ferry | Intermittent Stream |
| Railroad | Property/Fence Line |
| | Navigation Boundary |
| | Reservoir |
| | Glacier |
| | Inset |
| | Out Area |

Where international, state, and/or county boundaries coincide, the map shows the boundary symbol for the higher-ranking of these boundaries.

1 A "s" following a place name indicates that the place is also a false MCD; the false MCD name is in **red**.

2 In 1990, the crews-of-vessels population of ships at sea was allocated to census tracts with a "99" suffix. An anchor symbol appearing on the 1990 maps indicates a crews-of-vessels tract. These maps show a very small area populated as a census tract with the census tract number shown near the area.

3 A "b" following a block number indicates that the block number is repeated elsewhere in the map.

Where international, state, and/or county boundaries coincide, the map shows the boundary symbol for only the highest-ranking of these boundaries.

- ¹ A "0" following a place name indicates that the place is also a false MCD; the false MCD name is not shown.
- ² In 1990, the crews-of-vessels population of ships at sea was allocated to census tracts with a ".99" suffix. An anchor symbol appeared on the 1990 maps locating a crews-of-vessel tract. These maps show a very small area symbolized as a census tract with the census tract number shown near the area.
- ³ A "*" following a block number indicates that the block number is repeated elsewhere in the block.

Figure 1 illustrates various symbols used in map design, categorized into three columns. The first column shows symbols for roads and trails: a solid line for Highway, a dashed line for Secondary Road, a line with cross-ticks for Jeep Trail/Wakeby/Ferry, and a line with cross-ticks for Railroad. The second column shows symbols for boundaries and features: a line with cross-ticks for Pipe/Power Line, a line with cross-ticks for Ridge/Physical Feature, a line with cross-ticks for Property/Fence Line, and a dashed line for Nonvisible Boundary. The third column shows symbols for water features and other elements: a blue wavy line for Stream/Shoreline, a green wavy line for Intermittent Stream, a blue wavy line for River, a red wavy line for Glacier, a blue dashed box for Military, a grey box for Inset, and a grey box for Out Area.

1. The boundary symbol for only the ingress-flanking of insect boundaries.
2. In 1990, the crews-of-vessels population of ships at sea was allocated to census tracts with a ".99" suffix. An anchor symbol appeared on the 1990 maps identifying a crews-of-vessel tract. These maps show a very small area symbolized as a census tract with the census tract number shown near the area.
3. A "*" following a block number indicates that the block number is repeated elsewhere in the block.
